Readiness Support

Position ID: 2017 – EM – 625

Position Location: St. Louis

Duration of Position: Full-Time

**Security Clearance TS/SCI
(TS/SCI Clearance REQUIRED)**

Need Date: Immediate

Intelligence Consulting Enterprise Solutions, INC. is looking for a **Readiness Support** professional.

Description:

- Provide engineering and program management support to the N2W Assistant Program Manager for Integration & Readiness (APM-I&R) to support the engineering, planning, coordination, and execution of N2W Program Integration activities in support of the overall N2W Program.
- Assist the N2W technical advisor for all N2W readiness related functions.
- Support the APM-I&R and other N2W APMs throughout the lifecycle of the N2W program on requirements, processes, and industry best practices relating to the management of the various N2W technical baselines, including those managed by NGA and US Army Corps of Engineers (USACE).
- Provide proactive and anticipatory support related to N2W readiness and baseline management activities' impact to the N2W Integrated Master Schedule (IMS), particularly the N2W Critical Path.
- Provide support to the Government and N2W PMO representatives at meetings.
- Provides relevant input to the APM-I&R on budget and other taskers or actions.
- Assist APM-I&R in planning and technical exchanges between prime contractors, segments, projects and customers.
- Support execution of N2W Readiness processes.
- Take & publish meeting minutes; Advise PMO & stakeholders on readiness issues.
- Document readiness improvements & best practices.
- Support preparation of readiness briefing materials.

Required Qualifications:

- Bachelor's degree in a related field and 4 years of experience/2 years of specialized experience.
- Demonstrated experience on a complex government integration and engineering program involving multiple systems, contractors and agencies.

Desired Qualifications:

- Graduate degree in a related field.
- Understanding of the geospatial intelligence mission and its contribution to the IC.
- Knowledge of NGA processes and tools, to include Systems Engineering, Acquisition, Configuration Management, Readiness and Security. Familiarity with USACE processes.
- Familiar with NGA requirements processes, IC-ITE CONOPS, and NGA ISP/ASP Model.
- Related experience in a complex mega facilities project.
- Support management and optimization of complex competing requirements across multiple disciplines in a fiscally constrained environment.
