Risk and Opportunity Support

Position ID: 2017 – EM – 628

Position Location: St. Louis

Duration of Position: Full-Time

**Security Clearance TS/SCI
(TS/SCI Clearance REQUIRED)**

Need Date: Immediate

Intelligence Consulting Enterprise Solutions, INC. is looking for a **Risk and Opportunity Support** professional.

Description:

- Provide specialized engineering, and program management support to the N2W Assistant Program Manager for Integration & Readiness (APM-I&R) to support the engineering, planning, coordination, and execution of N2W Program Integration activities in support of the overall N2W Program.
- Support primary N2W technical advisor for all N2W risk & opportunity management related functions.
- Support APM-I&R and other N2W APMs throughout the life-cycle of the N2W program on requirements, processes, and industry best practices relating to the integration and management of the various N2W risk and opportunity registers, including those managed by NGA and US Army Corps of Engineers (USACE) and NGA's other government and contractor partners.
- Provide support related to N2W risk and opportunity management activities' impact to the N2W Integrated Master Schedule (IMS), particularly the N2W Critical Path.
- Provide support to the Government and N2W PMO representatives at meetings.
- Provide input to the APM-I&R on budget and other taskers or actions.
- Support APM-I&R in planning and technical exchanges between prime contractors, segments, projects and customers.
- Support execution of N2W risk & opportunity processes.
- Take & publish meeting minutes; Advise PMO & stakeholders on risk & opportunity issues.
- Document & support implementation of risk management improvements & best practices.
- Prepare readiness briefing materials.
- Support management and optimization of complex competing requirements across multiple disciplines in a fiscally constrained environment.

Required Qualifications:

- Bachelor's degree in a related field and 8 years of experience/6 years of specialized experience.
- Demonstrated experience and expertise on a complex government integration and engineering program involving multiple systems, contractors and agencies.
- Demonstrated experience in audit, preparing for audit, and resolving audit findings within the federal government.

Desired Qualifications:

- Graduate degree in a related field.
- Understanding of the geospatial intelligence mission and its contribution to the IC.
- Knowledge of NGA processes and tools, to include Systems Engineering, Acquisition, Configuration Management, Readiness and Security. Familiarity with USACE processes.
