Configuration Management Support

Position ID: 2017 – EM – 629

Position Location: St. Louis

Duration of Position: Full-Time

**Security Clearance TS/SCI
(TS/SCI Clearance REQUIRED)**

Need Date: Immediate

Intelligence Consulting Enterprise Solutions, INC. is looking for a **Configuration Management Support** professional.

Description:

- Provide specialized engineering, and program management support to the N2W Assistant Program Manager for Integration & Readiness (APM-I&R) to support the engineering, planning, coordination, and execution of N2W Program Integration activities in support of the overall N2W Program.
- Serve as N2W technical advisor for all N2W configuration and change management related functions.
- Support APM-I&R and other N2W APMs throughout the lifecycle of the N2W program on requirements, processes, and industry best practices relating to the integration and management of the various N2W technical/configuration baselines, including those managed by NGA and US Army Corps of Engineers (USACE) and NGA's other government and contractor partners.
- Provide support and advice related to N2W configuration & change management activities' impact to the N2W Integrated Master Schedule (IMS), particularly the N2W Critical Path.
- Provide support to the Government and N2W PMO representatives at meetings.
- Provide input to the APM-I&R on budget and other taskers or actions.
- Support APM-I&R in planning and technical exchanges between prime contractors, segments, projects and customers.
- Coordinate participation of Change Management Board (CMB) members.
- Support execution of N2W configuration and change management processes.
- Take & publish meeting minutes; Advise PMO & stakeholders on CM issues.
- Document configuration management improvements & best practices.
- Prepare readiness briefing materials.
- Support management and optimization of complex competing requirements across multiple disciplines in a fiscally constrained environment.

Required Qualifications:

- Bachelor's degree in a related field and 8 years of experience/6 years of specialized experience.
- Demonstrated experience and expertise on a complex government integration and engineering program involving multiple systems, contractors and agencies.
- Demonstrated experience in audit, preparing for audit, and resolving audit findings within the federal government.

Desired Qualifications:

- Graduate degree in a related field.
- Understanding of the geospatial intelligence mission and its contribution to the IC.
