Security Clearance: TS/SCI Clearance REQUIRED

(Active SCI within 2 years; SSBI current within 5 years)

Need Date: Immediate

Intelligence Consulting Enterprise Solutions, INC. is looking for a **Technical Trainer**.

Description:

In this position, personnel will be responsible for providing support to implementation of technical training courses, facilitating customer visits, and performing lab demonstrations that provide a competitive edge for technical audiences. This will include training based on field needs and the delivery of new product and technology training in support of field readiness. Administer hands-on tests. The position will also be responsible for helping to create, test, and review new and existing courseware.

Required Qualifications:

- Bachelor's degree in English, Education or Related Technical Field
- 6 – 10 years of experience in a related field
- Ability to define and develop a technical training course.
- Ability to clearly communicate information in training materials.
- Ability to be a key contributor to the body of information being incorporated into a technical training course
- Ability to provide multiple approaches to training and lab demonstrations to satisfy learning requirements for technical audiences
- Ability to manage and lead the training team
- Strong customer service teaming skills; ability to collaborate in cross-functional team
- TS/SCI Clearance (with current SSBI favorably adjudicated within the last 5 years)

Desired Qualifications:

- Master or PhD in English, Education or Related Technical Field
- Demonstrated working knowledge of the NGA organization, leadership, programs, systems
