Intelligence Consulting Enterprise Solutions, INC. is looking for a **Technical Trainer**.

Description:

In this position, personnel will be responsible for providing support to implementation of technical training courses, facilitating customer visits, and performing lab demonstrations that provide a competitive edge for technical audiences. This will include training based on field needs and the delivery of new product and technology training in support of field readiness. Administer hands-on tests. The position will also be responsible for helping to create, test, and review new and existing courseware. Ability to clearly communicate information in training materials.

Level I

Education: Bachelors in English, Education or Related Technical Field

Years of Experience: <1 Years

Ability to define and develop a technical training course.

Level II

Education: Bachelors or Masters in English, Education or Related Technical Field

Years of Experience: 1-3 Years

Same as level 1 plus the ability to be a key contributor to the body of information being incorporated into a technical training course.

Level III

Education: Bachelors or Masters in English, Education or Related Technical Field

Years of Experience: 4-6 Years

Same as level 2 plus the ability to provide multiple approaches to training and lab demonstrations to satisfy learning requirements for technical audiences.

Level IV

Education: Bachelors, Masters or PhD in English, Education or Related Technical Field

Years of Experience: 6-10 Years

Same as level 3 plus ability to manage and lead the training team.
